

## FOR SALE:

*Posted May 10, 2017*

2 MYCOM N8A Compressors (pictures below)

Compressor #1 Hour meter Reading – 8,179(new motor 2015)

Compressor #2 Hour meter Reading – 8,294

DOTS will be disposed of.

Compressors have been rebuilt by CIMCO every two seasons (at approx. 8000-9000 hrs). Hour meters new with new electrical panel 2 years ago which is why they only read 8000 hrs.

Previous hour meters were at 60,000 hrs when switched out. C1 was overhauled last summer (2016), C2 the summer before (2015). Alternate between C1 and C2 so over haul is done every year. Each compressor typically ran 4000-4500 hrs per season.

Price = \$15,000/compressor OR \$20,000 for both.

Please contact Derek Starnes [derek.starnes@slavelake.ca](mailto:derek.starnes@slavelake.ca) if interested.
