Spray Park Information

The Town of Hanna is looking for information regarding Spray Parks from owners/operators in Alberta. Any assistance or insight you can provide is appreciated.

Please add any additional information or "lessons learned", as often these comments provide interesting gems of knowledge.

- Spray Park component cost.
- Size of spray park? (number of components, all above ground features or ground mounts? Combination of both?)
- Contractor responsible for construction/project?
- Would you recommend or work with them for future projects?
- Seasonal or year round use?
- Fenced? Or Not fenced?
- Re-circulating system?
- Operational costs?
- Free or pay to use?
- If pay to use, is the facility a stand alone? or combined with other facilities/amenities?
- Staff/maintenance requirements on daily allocation
- Health authority operational concerns?
- Other??

Thanks so much for your help!

Sincerely,
Gwen Snell
