

FACILITY MEMBERSHIP

Recreation Facility Personnel is now offering single Facility Memberships. It is available to public and private recreation facilities.

This allows five facility staff to become members for one year for an annual fee and additional facility memberships in increments of the annual fee for each group of five staff.

Once the five staff members are identified, the memberships are non-transferable during the one year membership. This will allow those staff members identified to participate in R.F.P.'s courses and conference as a Member.

At the time of application, all five memberships do not have to be assigned, however, those added at a later date will have to go under the original membership date.

This membership only allows one copy of any mailouts (i.e. Leisure Lines newsletter, Calendar, etc.) to be sent to the Facility identified.

Please complete the form on our website and have the Facility Manager or Recreation Director sign. Then forward this form to R.F.P. with a cheque in the amount of the annual fee as listed on our website.

The membership will start on the date the cheque is received in the Office.
